FORTY-SECOND YEAR, No. 24

### QUOTA FOR FORESTRY CAMP IN HANCOCK CO. ARRIVED FRIDAY MORN.

Over Two Hundred Young Stalwarts Arrive and Pitch Camp—Number Originally From South Mississippi—Scene of Camp Near Catahoula.

Two hundred and some youths, accompanied by their superior officers with governmental authority, arrived Friday morning in Bay St. Louis over the L. & N. route from Fort Barancas, Florida, and taken in county school buses of Hancock, were at once located at point near Catahoula and two and one half miles north of Kiln, to establish one of the U. S. Reforestation camps.

These men will remain here for a period of some six months, they will work forest and vacant territory land known as lie land, that is the sixteenth section school lands in which forty-nine counties in Mississippi own shares. The lie lands were set aside years ago by the State for so many county school funds, that is the product from these lands to revert to school purpose and interest. It is these lands that will be worked, under auspices of State Forestry Board as well as the State forest fire protection bureau.

Land will be cleared, fire-brakes built, telephone lines constructed in order to communicate quicker in the event of outbreak of forest fires, and all such work as clearing replanting will be vigorously pushed.

The camp is located on land belonging to Alphonse Necaise and water is piped from an artesian well belonging to Dr. Necaise near by. The camp is officiated by Capt. H. J. Mitchell, of Fort Banning, Ga.; Lt. George A. Tucker, Fort Barancas, Fla.; Lt. Moore, reserve officer, who has been in Bay St. Louis for some time previously; 1st Sgt. H. H. Gray, Fort Barancas; Corporal Geo. Smith and Corporal Dudley C. Bressell. The Echo is appreciative of courtesies on occasion of a visit to the camp to Capt. Mitchell and his lieutenants and also for special clerical assistance.

### CITY WATER RENT WILL BE DUE JULY 1, SAYS COLLECTOR

Commissioner W. L. Bourgeois Publishes Notice Addressed to Water Users.

City Commissioner W. L. Bourgeois, city waterworks collector publishes an official notice elsewhere in this issue of The Echo to the effect that "notice is hereby given to all water renters that on July 1, 1933, all rents fall due and are to be paid from that date on."

And that failure to pay on or before August 1, 1933, water will be shut off to delinquent users, without further notice."

Payments for water are to be made annually in advance and Commissioner Bourgeois has no alternative but to follow the law out to the letter. He is at his office, City Hall, daily, during business hours and will serve the public and patrons. Any and further information that may be desired he will cheerfully give.

The Echo recently published an analysis of the city water, through the courtesy of State Board of Health and Dr. C. M. Ship, local health officer. The water is health-giving and analysis proves it to be a fine table water as well. It is also soft and desirable for the laundry.

Bay St. Louis water is desirable and there is no complaint about its quality. Besides the flow and force is always ample.

### Ladies' Auxiliary, U. S. W. V., Entertain At Benefit Lawn Party

The Lawn Party given by the Ladies' Auxiliary, U. S. W. V., of Bay St. Louis on the Bay High School grounds, Sunday, June 11, was a success. The chairlady wishes to thank the various merchants of the Bay for their donations, the public for their generous assistance, the President, Mrs. R. Burdahl, Mrs. C. Watts, Mrs. M. Shilling, Mrs. L. Griffin and Mrs. E. Coward for their assistance on the grounds, other sister for their donations, also the various comrades for their assistance in making the whole affair a success.

Marilyn Peairs had charge of the grab bag, which created quite an attraction for the youngsters. Girl Scout V. Coward assisted at the candy booth. Mr. Bitterwolf had charge of the children's games.

### WELL-KNOWN PATE FAMILY TO PRESENT RECITAL HERE, 21ST.

Prof. H. W. Pate, Formerly Of Bay St. Louis, and Daughters to Present Program

Music lovers of Bay St. Louis will be given a treat Wednesday night, June 21, 8 o'clock, at the Hotel Weston, when Mrs. C. B. Foster of Gulfport presents her pupils in recital. Her father, Prof. H. W. Pate, formerly a resident of Bay St. Louis some years ago, well known to the old band members of 25 years ago, an organization which he formed and directed, will assist Mrs. Foster in the recital, as will her sister, Mrs. J. V. Corra, pianist, will play several numbers on the recital program.

Mrs. Foster is the Coast teacher for the local school branch of the National Institute of the violin and her work in instructing pupils will be demonstrated in the excellent playing of her pupils who will present solos, duets, trios and ensemble numbers.

The pupils who are to play here are: James Garvin, Kenneth Williams, Lee White, Helen Mathers, Richard Dambro, Margaret Scott, Virginia Ashley, Edward Collins, Nellie Carpenter, Dorothy Savaree, James Fitcher, Majorie Stallings, Mattie Lou Lyons, Yvonne LaCroix, Bessie Dantzer Clark, Elizabeth Rhodes and Everetta Alexander.

The appearance in Bay St. Louis of Prof. Pate recalls the years of his residence here when his music was so definitely a part of the community life. He and his talented family of musicians have for a number of years appeared in concert and vaudeville throughout the east and north under the name of the Flying Bangards, and more recently have filled engagements for the principal radio stations in Boston. Prof. and Mrs. Pate and Mrs. Corra are spending the summer in Gulfport with Mrs. Foster.

### S. J. A. SUMMER CAMP TO OPEN MONDAY MORNING, JUNE 26TH.

Faculty of St. Joseph's Academy announces the opening of its regular summer camp on Monday of next week, June 26—Monday week—and closing August 27. Terms are quite reasonable, only \$8.00 per week, in advance, and it will be possible to remain only part time if the party in camp so wishes. Arrangements must be made in advance with Mother Superior, who will give any and all further information that may possibly be desired.

### Camp Onward Scene of Large Number of Young People in Annual Camp

Camp Onward is holding its first camp outing of the season. Over one hundred people, representing the Louisiana Young Peoples Service League of the Episcopal church of that State, are here since last Friday, June 9 and will remain until Monday morning, June 19, under the direction of Rev. Dr. J. S. Ditchburn and assistants.

The young Episcopal workers (boys and girls) enjoy the trip to Bay St. Louis annually and the camp work consists of recreation and study.

### 4-H Encampment For Hancock and Harrison Counties June 26-28

The thirteenth annual series of county 4-H club encampments, one of the most popular events on the year's club program, will be held throughout the state during June and July, according to the 1933 camp schedule announced today by L. A. Olson, Director of Extension.

The boys and girls will be organized into groups of ten or twelve to a group with a captain for each group. A number of the camps are planning to use the honor system in which the group captains will score their members on attendance, promptness, obedience, courtesy, sportsmanship, cooperation, keeping fit, service and reverence.

The Harrison and Hancock County camp will be held at Perkinsburg, College, on June 26-28 and will be under the supervision of Vernon Pace, Miss Lettie McAlpin and R. H. Bryson, county agents.

WOMAN'S SOCIETY TO MEET TUESDAY

The Woman's Missionary Society will hold the regular monthly meeting on Tuesday, June 20 at 3 P. M., at the residence of Mrs. Fred Wright with Mrs. Chas. Mitchell as co-hostess.

All members are requested to bring their World Outlook for May to this meeting.

### TO REPAIR BAY AUTO BRIDGE

Authorities Tell Chamber of Commerce Work Will Be Done Without Interruption.

Recently Bay St. Louis Chamber of Commerce took up the matter of reported condition of Bay bi-county auto bridge to the effect there were loose boards and that the surface appeared fast wearing and that, possibly a topping or some other attention would be necessary.

State Commissioner J. F. Thames, always alert and prompt, was communicated with and in his subsequent letter he said that he had "no doubt but what the district engineer and his force are keeping in touch with the possible needs of the bridge at Bay St. Louis and will not permit same to get in such condition as will hinder travel and divert the traffic over that road and bridge."

Further, in the same letter, Commissioner Thames said: "I am forwarding your letter, however, to Mr. J. D. Lewis, district engineer, for his consideration and attention."

Under June date District Engineer J. D. Lewis, writing from headquarters at Hattiesburg, addressed the Chamber of Commerce: "Your letter to Mr. Thames, relative to the condition of the Bay St. Louis bridge has been referred to this office."

"We beg to advise that we are keeping a close watch on this structure, and we don't think that citizens of the Coast need to be worried as to the condition of the bridge."

"Repairs which we expect to make this summer will not at any time result in closing of the bridge to traffic nor will they interfere to any extent with the use of the bridge by traffic."

### St. Stanislaus Camp For Summer to Open Monday, June 19th.

Faculty of St. Stanislaus College announces the opening of its regular summer camp on Monday of next week, June 19, with an encouraging enrollment, it was stated. The camp will last six weeks and boys from 8 to 18 will be admitted. Healthful recreation will be the watchword and only such food as best for bodily and mental betterment will be prepared and served. To those who wish special courses in study during a brief period daily will be given. Thus a boy in need of special study may do so and at the same time enjoy recreation on the golf coast to the full extent.

### Local Welfare Board Expanding Usefulness Of Organization

J. A. Peppard, Bay St. Louis welfare representative for the county and Mississippi State Board of Public Welfare, announces that all applicants for relief are being classified according to their occupation with the idea of operating an employment agency.

People desiring anyone to work will write or visit his office at the Knights of Columbus Bldg., Main street, and make their wants known, thereby, Mr. Peppard states, giving the welfare organization to be of more and of individual service to the public as well. This is done with a view of expanding the operation of the welfare bureau and of assisting those in need of work but to be of assistance to the individual looking for people to work.

### Death of Mrs. Joseph Bourgeois, Waveland; Buried Thursday P. M.

Mrs. Joseph Bourgeois, widow, died at her home in St. Joseph street, Waveland, Wednesday evening at ten minutes to 6 o'clock, the funeral held Thursday afternoon at 2 o'clock from the late residence with interment at Cedar Rest cemetery, Bay St. Louis. The funeral was largely attended.

The deceased is survived by six children, Mrs. Corinne Nichodas, Cyril, Alec, Vital, Joseph and Alphonse Bourgeois and brothers, Alcide, Ollis and Sylvan Lader. The late "Toot" Lader was also a brother.

She was a native of Waveland, aged 68 years.

"But I'm not a bit like Jones."  
"Yes, you are. You both owe me \$10."

### COAST PUBLISHERS MEET TO NAME DATES FOR STATE PRESS MEET

Special Committee Appointed For Purpose Recommend July 14-15, at Biloxi.

Friday and Saturday, July 14 and 15 were dates selected by a special committee of Coast Publishers, at a meeting held at the Buena Vista Hotel, Biloxi, Monday evening, as dates for annual convention of Mississippi State Press Association, and Biloxi as the place.

This special committee was appointed by President Harold Sanders, of Aberdeen, and is composed of: Arthur V. Smith, first vice president, Mississippi State Press Association; George Goodwin, of Terry; Eugene P. Wilkes, Gulfport Daily Herald; Clayton Rand, Mississippi Guide; Robert W. Jacob, Biloxi Weekly News; Chas. G. Moreau, Bay St. Louis Sea Coast Echo.

Mississippi State Press Association members held no convention last year because of strained economic conditions, however, President Sanders deemed it advisable to appoint a special committee and let its members decide to hold a meeting or not.

It was pointed out that while a number of weekly newspapers had gone out of existence and general business for the press had not as yet taken an upturn, that it would be well to hold the convention this year nevertheless. That more so since no meeting was held last year. It was further pointed out that Up-State folk are fond of coming to the Coast; that they never lose an opportunity to visit their own sea coast, and if the convention was held here that one fact in itself would prove of tremendous factor.

The Buena Vista was also recommended as headquarters for the convention.

### WELFARE BOARD IS ACTIVE

Labor Directed to Extent That Most Public Good Be Accomplished For County

J. A. Peppard, local representative of the Mississippi state board of public welfare, for Hancock county, reports considerable activity in public welfare work in the county as well as the county. This work has consisted, Mr. Peppard reports, of widening highways, building fills, blowing stumps and repairing bridges and from other sources of this county.

It will be remembered the school building at Flat Top was destroyed last year and since then has never been rebuilt. County Superintendent A. S. McQueen says it is one of the successful country schools, two teachers employed, and serves quite a territory. The building is one-story frame and is built so as to take care of increased attendance. Its structure is substantial, heavy timbers used in the building.

St. Claire's Catholic church at Waveland has been painted by welfare board labor and the Catholic rectory in Bay St. Louis, it was stated, will also be similarly treated, paint being furnished by the church.

Photographs, which The Echo viewed, shows where roads have been widened, large stumps removed and where great "fills" have added to higher and wider road surface, thus insuring more safety for the traveling public. The work over the county has been varied and extensive and makes a splendid showing, and that the labor has not been in vain but put to practical use and where it will do the most good to the greatest number.

"I was quite impressed with your editorial referring to the removal of former pier stumps and other obstacles that dot the Bay St. Louis and Waveland beach," Mr. Peppard said to the Echo, "for I had already noticed that unsightly picture when the water is out and it would only require labor and no other outlay to remedy this. Your Chamber of Commerce has long been interested in this project and I would be willing to co-operate with that body or any other organized body with authority."

Mr. Peppard uses the labor to considerable advantage, neither favoring one section or selecting one place to the exclusion of others. It is his plan to give as many people work as possible and to get the maximum of results therefrom and in a manner that will redound to the benefit of the public. He is live, progressive and alert, and nothing seems to escape his attention.

Hancock county's welfare board headquarters are located in the Knights of Columbus building, Main street.

### MANY IMPROVEMENTS IN AND ABOUT CITY OF MUCH SIGNIFICANCE

Mayor and Commissioners Carrying Out A Program Of Minor Improvements That Mean Much

Mayor G. Y. Blaize and his associates, Commissioners Bourgeois and Perkins, are having considerable work carried out in and about the city proper. Improvements that mean something and that in a way are noteworthy.

At Cedar Rest cemetery a force of men have been working cleaning away weeds, debris of fallen tree limbs and other accumulation and place all walks in shape and generally giving the cemetery a "clean up" that is fitting and enhances the beauty of Cedar Rest, where cedar trees and plants abound in profusion.

Another improvement is the marking of corporate limits of the city, City Engineer Steele E. Drake in charge with his assistants. It will prove of valuable assistance to know just where the city limits exist. This work for the present is carried on in that territory bounded on Washington street to the south and by the former Norton Place to the west.

"We have long contemplated these attentions," said Mayor Blaize, "and it is only by the strictest economy and intelligent application we are able to do these minor things—small in cost but meaning so much to our people. It means knowledge of your own town."

In front of Sheriff's Store, Main and Toulme streets we find another force "marking off" the street with white lines, "No Parking Here," and other places where one may park. This is to relieve a congestion at a corner where there is much traffic and where parking, like at other places, must be regulated. It is expected that the city in order to better aid the auto driver and to establish safety zones. The pedestrian must be protected as well as the auto owner and driver. Other attentions are contemplated and in time will make that showing to the effect the city fathers are busy and taking care of every interest, from the most minute detail to the biggest.

"We wish our city to look the best," said Commissioner Bourgeois, "and we wish to co-operate with the residents who are interested in their premises and taking care of same. We plan to do our share and help every one to make the best showing. The stranger within our gates must not only be welcomed but we must attract his eye and engage his attention in order he may either stay or wish to come back."

"It is a great pleasure and a matter of more than ordinary interest," said Commissioner Grady Perkins, "not to only look after the many duties in clerical and executive capacity at the city hall but to work with the Mayor in the public improvement program. The city beautiful, the city clean and the city attractive has always appealed to me and in the end spells economy."

### BAY GIRL SCOUTS SPENDING WEEK AT CLERMONT HARBOR

The girl scouts of Troop 1, Bay St. Louis are enjoying a week's camp as guests of the Clermont Harbor Inn. The Inn is ideally located with excellent facilities for bathing, fishing and crabbing and splendid roads for hiking.

The camp is under the direction of Mrs. J. B. Goldman, captain, with Misses Mary Elba Marshall, Hava Ansley and Ruth Schreck, lieutenants, assisting and Mrs. Jas. A. Evans, committee chairman, is in charge of the food supply and Mrs. Bland Logan, who is now living at the Inn, is acting as hostess.

The girls scout will remain for the full week. Report are to the effect that they are having the "grandest time" of their lives.

### UNCLE CHARLIE'S NITE CLUB.

Uncle Charlie's Nite Club, with its new dance orchestra from New Orleans, is proving a drawing attraction for the Bay City and each Saturday night witnesses an increased attendance. This Saturday night the famous orchestra will again play for the dance and an evening of pleasure is keenly anticipated.

As we stroll through the great Mollere Groceteria and see the thousands of items that this store must carry to be prepared to serve the varying demands of its immense clientele, we would discover on investigation that every country in the world has given of its best to those vast assortments before us.

This week Mollere's Groceteria is celebrating its 4th annual anniversary.

For the sake of adventure, let us travel places on the occasion of this anniversary event. We mount a fast airplane to start the westward circle. Gliding over verdant land of Mississippi, where the very choicest paper-shell pecans come from. On ahead to our sister state, Louisiana. Its rich alluvial soil produces most of the rice grown in this country. Sugar, yams and syrups also form important parts of it commerce, as do shrimp. We quickly leave our Sister State behind to see beneath us the vast expanse of Texas' cornfields. Then over Colorado, miles below little dots on a map is the world's most famous melon farms—that's where our luscious Rocky Ford melons come from. Next is Utah, home of the Mormons. To the left is the Great Salt Lake.

Then over California. Here we find vast expanses of orange groves, olive groves, nut groves, berry, fruit and vegetable ranches in a district where the wonder hand of irrigation turned arid wastes into a blossoming Eden.

Now North, traveling over that fairland along the sea to Washington, where the great salmon industry thrives.

Westward over the mighty ocean we see the paradise of the Pacific, the Hawaiian Islands, on the rolling hillsides the immense pineapple plantations where fruits are conceded the finest in the world.

Now the East Indies—Borneo, Sumatra, Java—those famous spice lands sought by Columbus for spices that were more precious than gold in his day, when a single pound of pepper constituted a pretentious royal gift. Here darkskinned men and women fantastically dressed are busily at work, blending with the colorful background of a foliage as gaudy as their own costumes.

Next comes China, that topsyturvy land where a book begins at the back and ends at the front; and where a dinner begins with sweets and ends with soup. Below us is a continent of rice fields with millions of men, like squirrels in a cage, lightly stepping on treadmill wheels to pump the needed water into mountains of rice through veritable efforts of rice reward their efforts. With his four years of experience in judging quality, Mollere unfailingly selects the choicest kernels.

A side trip takes us to Japan, with its metropolitan business districts on one end of a town and its fascinating "paper houses" on the other. From here comes choice bean sprouts and many of those delectable teas that are a specialty at Mollere's Groceteria.

Arabia comes next—original home of the coffee bean. We pass over the picturesque towers and turrets of Mecca and then over the great Arabian desert with its colorful sheiks and camel caravans plodding their cargoes of dates, figs, coffee and other products to the marts of commerce.

Soon we cross the Mediterranean, cradle of modern civilization, to Italy, lying like a gigantic boot, with its top fringed in snow and its toe dipping into the blue waters. This smiling country sends to Mollere's Groceteria its most delectable olives and olive oil, pistachio nuts, lemons, gorgonzola and Parmesan cheese, and the genuine Bologna sausage—delight of epicures.

Northward to Holland, land of windmills and dikes, where many of the principal "streets" are canals. What are those huge stacks at the wharf—cannon balls? No, those are palatable round Edam cheese, cured to perfection.

Still northward to this farthermost city of Europe—Hammerfest, Norway, in the Arctic Circle, where the sun never sets from May to July. From this tiny city comes the celebrated Norwegian cod, herring, mackerel and sardines.

Now back, southward, we leave civilization behind us, crossing the Atlantic, to soon find below us the picturesque coast line of Maine with its coves, bays and wooded wilds. In Mollere's Groceteria stock you will find many of its famous

## SHUBERT'S SPLENDID EXAMPLE

THERE have been so many disclosures in recent years which have revealed the callous disregard of investors on the part of men managing large corporations that it is somewhat refreshing to call attention to an example of another sort.

Announcement has been made by Lee Shubert that all shares of stock allotted to him in the new company which bought the assets of the bankrupt Shubert corporation will be passed on without cost to those who lost money in the corporation which he and his brother formerly directed.

In making the announcement, Mr. Shubert wanted the investing public to know that his brother, the members of his family and himself suffered their share of the losses and "did not step out, leaving the public to bear the burden." After reviewing the losses sustained, which exceeded a million dollars, he says: "I will not be satisfied until I can restore my fellow investors in Shubert Theatres Corporation a substantial part, if not all, of what they have lost."

In speaking of the future, this theatrical producer expressed the hope that the depression is over and that the new property will produce large earnings in the future. However, he declares he "would not be content to share in the benefit of the recovery while those who have been my fellow investors had suffered an irrecoverable loss."

The ethics expressed by Mr. Shubert would make good reading for some of our erstwhile banking and investing Nabobs. He says that no holder of senior claims against a business enterprise "under conditions like the present, has a moral right to buy in the properties at a forced sale without making every effort to give a fair participation to others, who, in the past, had invested their savings in the enterprise."

Very frankly, The Echo knows little about Mr. Shubert except as the public record records his participation in the theatrical world. However, judging from his words, he has placed himself upon a very commendable platform of sound business ethics and his acceptance of responsibility to those who backed his former corporation and lost indicates that he is certainly entitled to much praise in a day when the so-called "big boys" have been accustomed to giving the helpless investor a "ride."

## SUCKERS vs. SLICKERS.

READERS of The Echo who have occasion to invest funds within the next few years should be forewarned by an estimate recently made by the Federal Trade Commission. This board says that statistics indicate that, during the last ten years, the people of the United States purchased worthless securities to the amount of \$25,000,000,000, equivalent to \$250 for every man, woman and child in the country. It is surprising how men and women, usually well informed and competent in handling ordinary business transactions, will swallow absurd misrepresentation and believe fraudulent statements in regard to investments they are contemplating.

In fact, individuals who would hesitate to buy a bushel of produce from a street seller, without a close examination, have been known to invest the savings of a lifetime in some stock pressed upon them by a stranger, using his rapid-fire, high-pressure sales talk.

## REMEMBER TO BE CAREFUL

VACATIONS bring to our citizens new dangers as well as an opportunity for recreation.

The automobilist, speeding on some distant journey, may never reach his earthly destination. The boy, learning to swim, may find his lessons prematurely ended. The summer girl, floating languidly on placid waters, may find herself fighting the grip of the waters. Countless other instances could be cited where vacationists take risks and carelessly invite serious injury, if not death.

Those who plan to enjoy vacations this summer, or to indulge in outdoor activities, should exercise all reasonable precautions. It is better to be over-cautious than to be crippled and a timid existence is still superior to none at all.

## REVELATION OF INVESTIGATION

THE Morgan investigation has revealed very clearly the necessity for revision of the income tax laws.

The average citizen may wonder why the bankers were able to circumvent the intent of the law. Perhaps it is because private companies are willing to pay for the use of the brainiest men in America to look out for their interests.

Advancing farm prices is one of the best signs of national recovery.

Adults should not forget the needs of children and Bay St. Louis should provide for their cultural and physical growth in every possible way.

The statistics and business indexes combine to reiterate that business is improving. Some years ago when they showed that business was going down—well, you know what happened.

## OUR CITY

BAY St. Louisans love their city, as it should be. "My city" is a significant term. It means the place where we dwell, where we share the joys and sorrows of one another, where we bear with the daily vicissitudes that must come now and then. Where our schools, churches, to one and all at a time, where we participate in the successes and good things that come to one and all. Where our schools, churches, places of abodes are located.

It is then but just and with pardonable pride that we refer to "our city," in terms that carry. We are interested in all phases of the success of Bay St. Louis. Its civic advancement is appealing and we vie with pride in keeping our premises in best of order and appearance. The city administration is not unmindful of this fact. It is easy to see evidence of this attention on every side. Vacant lots that carry dangerous crops of weeds are no more. Instead of the health menace we find open spaces cleared of undesirable growth and rubbish.

Just now we find a force of men working on the streets. Mayor Blaize and his associates are removing all such places where the hard-surfacing material has "buckled" and caused high ridges to jolt every passing vehicle. The "bumps" are gone and in their places "cold patches" are removing not only menace but unsightly appearance.

And so it goes down the line, dear reader. Every effort to ameliorate conditions, to beautify is a contribution to "our city," our home, our own is a contributing factor to our continued success and happiness. May we ask, are you doing your share?

The idea that the income tax law soaked the rich seems to have been dissipated by the Morgan testimony, which showed that neither J. P. or his partners paid any tax for two years.

## VACANT LOTS FIRE HAZARDS

A RECENT fire in this city, caused from the burning of weeds and trees in a vacant lot on the beach front in the Cedar Point vicinity of this city, causing serious damage to one dwelling and as well to others, is a lesson to be heeded lest further visitation of disaster.

It is shown that this vacant piece of land, on the beach, in the very heart of a populous section of the residential beach section, was allowed to grow weeds man-high, as was expressed, and shrubs and other small tree growth that as a fire hazard could not be equalled. And now the question arises, what assurance for the future?

There should be every precaution provided against the vacant lot menace allowed to grow weeds and wild with growth. For many reasons. Sanitation demands it, protection from lurking places for mosquitoes and other insects, and protection from the ugly sight presented to say nothing of the fire hazard.

Mayor Blaize, we understand, recently was somewhat criticized for directing work of clearing vacant lots. The wisdom of his action is now well shown. It must be remembered the fire of last week from a vacant lot caused a loss to one place of approximately a thousand dollars, to say nothing of other damages. The subject is too important to be dismissed here. It should be followed with vigorous and emphatic attention.

A subscriber wrote us recently that this newspaper was his opinion of a good newspaper. That's fine; may he live long to read it.

## JOHN J. KENNEDY APPOINTED

OUR warm, personal friends, John J. Kennedy, mayor of Biloxi, has been appointed by Pres. Roosevelt for the post of comptroller of customs at New Orleans, a precedent the Associated Press states in a dispatch from Washington, of 30 years' standing broken by the President's action, previous appointments for at least that far back having been Louisianians.

Regardless of precedent, the appointment of so splendid a man and public servant, who has been tried and not found wanting, is good news indeed and we may say for all concern. A better appointment could hardly have been made. Mayor Kennedy, while yet a comparative young man, still in his prime, is an executive and director of experience. A man of ability, engaging personality and whose dealings with the public in official capacity well qualifies him for further public duty.

Mayor Kennedy's friends of Louisiana, Alabama and Mississippi—for he is well and widely known in the three States, combine in congratulations and best wishes.

The only regret is that he will not be on the Coast, however, we feel assured his heart will ever be with this section. Not only in Biloxi but on and through to Bay St. Louis, from one extreme limit of the coast to the other. This is his kind of loyalty, his kind of man.

## PASSING AWAY OF JOHN H. WESTON

WHILE wholly not unexpected, the passing away of John H. Weston, lumberman of Hancock county, at his home in Logtown Sunday morning at an early hour, was quite a shock to those who knew and fondly liked this son of Hancock county.

He had been acutely ill only two weeks. The news of his illness caused much concern. It was hoped he might pull through, even though physicians in charge gave little or no hope.

A son of Hancock county's pioneer lumberman, Henry Weston, a brother of a fine family of five brothers, all developers of this county and State, and a man of genuine worth his loss is heavy and when a community loses one who has been a builder and doer, besides an exemplary force of moral strength and character the loss is double.

The Echo deeply regrets to chronicle the demise of one for whom it had so much regard; one whose friendship we enjoyed. To have known him and enjoyed his consideration is well a privilege. We shall always revere his memory, cherish his friendship and strive to abide by the precepts set forth in his exemplary and

## SAUNTERINGS

From Where The West Begins.

By JOHN T. MEYERS  
(For the Sea Coast Echo)

SUNDAY, June 18th is Father's Day. This is one day in the year that dad can pull some of his pet shortcomings—and get by with it. He can't get away from the living room rug. Scatter the newspaper all over the house. Give his razor a rest. Treat the dish towel like a total stranger. He can even thumb his nose at the hundred-and-one task on the docket for his attention when around the house. Father will be in the spotlight on Sunday. Let's give the old boy a big hand, folks.

## DAD'S DAY AND HIS PREROGATIVES.

Gifts and greeting cards for father are offered in the stores. The average dad will be contented and feel highly honored if his family were to slap him affectionately on the back, and tell him he is a good scout and a swell pal.

## FLAG DAY AND THE STANDARD OF LOYALTY.

FLAG DAY was celebrated on Wednesday. In time of stress and financial difficulties Americans should take inventory of their patriotism and loyalty to the glorious flag of the United States.

Anyone can be a fair-weather patriot. Let's keep present day loyalty to our flag on a standard with the example set by those courageous Americans who followed Washington through the hell of Valley Forge. This country needs more of that same spirit today.

## HANDICAP REMOVED CUPID HAPPY.

DAN CUPID, the little bow and arrow man, may have been doing some high pressure lobbying around the Capitol here in the Lone Star State.

The law requiring filing of intentions to marry 3 days before issuance of marriage license was repealed during a recent session of the Legislature. Senator Cupid, evidently wants no handicap in his way, once he aims the unerring arrow that makes two hearts beat as one.

Heretofore, many young couples eloped to Mexican border towns to escape the 3-day intention law. The section of the marriage law requiring physical examination of the prospective bridegroom is still in effect.

## PUBLISHER OF NATIONAL FAME PASSES AWAY.

LAST week, Cyrus H. K. Curtis, publisher and philanthropist of national fame, departed on a greater assignment, beyond the limitations of this earthly sphere.

The life's work achievement of this successful newspaper and magazine publisher should set a sterling example for ambitious young men and women struggling along the road of experience and hard knocks in attempt to reach the elusive goal of fame and fortune.

At the age of 12, Mr. Curtis began his eventful career in the humble role of newsboy. He used as his motto: "Heaven helps those who help themselves." Mr. Curtis was 83 years of age at the time of his death.

## BEER ON SALE AND OPENLY IN S. ANTONIO.

LEGAL 3.2 beer is still openly on sale in San Antonio. The price has dropped from 35 cents to 25 cents a bottle. Beer from New Orleans breweries retains the largest distribution. Some Budweiser and Atlas brew from Chicago is on sale at certain downtown drug stores and cafes.

Prohibition men have made no further attempts to halt the sale of 3.2 beer in San Antonio, following alleged "hands off" orders from Washington. The local brewery has received permission to manufacture and store a large supply of 3.2 beer in anticipation of a favorable vote to repeal the state's Dean law. The citizens of Texas will voice their sentiments on August 26th. In the meantime several new breweries are planned for this city. This will mean added employment and bigger payrolls for San Antonio.

## HIJACKING BEER TRUCKS REPORTED.

DRIVERS of beer-laden trucks transporting 3.2 beer from Louisiana to San Antonio have already experienced the tactics employed by eastern gangsters.

Several truckloads of beer have been hijacked enroute here. The business end of machine guns punctuated the threatening commands of racketeers to "Stick 'Em Up." The beer runners are in a tight spot. Their business is not exacting on the up and up either. Reporting hijacking to the law was out of the question. They were compelled to take the rap. It's all in the game.

The big shots are predicting that beer transport trucks may carry machine guns to protect their liquid cargo in the future. Editors will be assigning war correspondents to the Louisiana-Texas battle front if this keeps on.

## BICYCLE FAD OF OTHER YEARS RETURNS.

THE bicycling fad has hit San Antonio full force. This sport, reminiscent of the gay, old '90's, was revived in Hollywood recently. Screen stars started the wheel rolling. Alamy and her boy friends here, there and yonder have

## WHAT THE PRESS SAYS.

HUEY TELLS THE BOYS THAT HE IS SOME STRONG MAN.

(Jackson Clarion Ledger)

"MY WORD is worth something in a few states in this country. It is worth something in my own state and has been for many, many years. It will be worth something down there for many, many years to come. It has been worth something in my neighboring states."

"They made me against my consent, the issue in a governor's race in one state, but the man whom they charged as having had my support—and he did—was overwhelmingly elected governor of that state, notwithstanding the fact that in two previous races he never ran better than third."

Senator Huey gave utterance to the above on the floor of the Senate on Thursday of this week.

The next thing you know, he will claim that he is daddy of the sales tax. However, with all his boasted influence in his own state he has not been able or willing to issue the order that would put that tax through.

There are a few people who think that Senator Long was referring to Governor Conner as he ran twice unsuccessfully.

Then Huey spoke the word, and behold, the unsuccessful candidate was made the successful candidate between primaries.

However, Huey's confession on his part in Mississippi politics comes too late to do any good or any harm, regardless of whether the statement is true or untrue.

While there is no love lost between Senators Huey and Pat, it is hardly likely that when the time comes Huey will bring his sound truck to Mississippi in order to fight the senior senator, should he have opposition. There may, however, be some significance to the fact that Huey never leaves an opportunity pass to tell how strong he is in neighboring states, and how much influence he can throw for or against.

## YOUR INVESTMENT IN RAILROADS.

(Bogalusa Enterprise)

RAILROAD securities may not be listed in your name. But the chances are that you have an insurance policy, a savings account, perhaps an interest in some endowed institution. If you have, you are a railroad stockholder. For a great many banks and insurance companies and universities and hospitals have been putting much of their money into railroad bonds. They did this because it seemed a sure-fire investment, from the standpoint of safety—no industry seemed more necessary to the country or to have a better chance of permanence than the railroad.

The question now is—was that a mistake? The railroads are still the basic medium of transport. They still carry practically all of the long-haul freight in the country, something no other transport system does. They still reach into every corner of the nation—something no other transport system does. They still offer unparalleled standards of service. There is still no competitor in the field which is able to fill their shoes.

gone dippy over this game of spills and thrills.

The conservative costume worn by grandma when she helped peddle a bicycle built for two back in the '90's has been skeletonized by modern female cyclists. The flapper's outfit consists of short trunks, blouse, and rolled down socks. A tam, cocked at a jaunty angle atop her head, completes the ensemble.

Bicycle-for-rent concessions are spreading to parks in every section of the city as the fad grows. The fee at present is 25 cents per hour. Like Ed. Wynn, we believe we'll stick to our horse, Graham.

## WITH THE MOVIES AND FILM FOLKS

(For the Sea Coast Echo)

PAUL MUNI has finished his stage engagement in New York and is on his way to the Coast to resume his picture career.

W. C. Fields is to be made a star in his own right by Paramount. The Zazu Pitts-Thelma Todd combination will probably be broken up. The Roach studios are unwilling to meet the salary demands of Miss Pitts and Patsy Kelly of "Flying Colors," will probably replace her as Miss Todd's partner.

Anna Sten, blonde Russian, will make her American debut in Zola's "Nana."

Helen Hayes and Robert Montgomery are in the cast of "Another Language," the film version of Rose Franken's play.

Paul Robeson will have the title role in the picturization of Eugene O'Neill's "The Emperor Jones." Durbosc Hewward prepared the script. Irene Dunn will probably have the lead in "Stingaree," the romance of the Australian girl and a colorful outlaw.

The musical picture cycle is having difficulty in finding story ideas and some producers predict its early death.

Fred Astaire and Helen Broderick are ready to go before the camera in "Flying Down to Rio."

Will Rogers is about ready to begin work on "The Last Adam." Vera Allen, a newcomer will have the feminine lead.

Ramon Navarro will soon start "Laughing Boy," based on the novel of Oliver La Forge.

Alice Brady, who planned to go back to the stage, has married Clarence Brown, the director, and signed a new picture contract.

Zazu Pitts and Slim Somerville's next picture will be "Love, Honor and Oh, Baby."

John Barrymore will be the swash buckling and smooth-tongued hero in the picturization of Edmund Rossland's "Cyano de Bergerac."

Norman Foster will be opposite Ginger Rogers in "Rafter Romance."

### Mollere's Groceteria Departments

WHAT Macy is to department stores, what Tiffany is to Jewelry stores, Mollere's Groceteria is to grocery stores. The leader. The pace setter. The store that has mastered the science of "quality at a price." Everything about Mollere's Groceteria is superlative. More items carried than any other Mississippi store; and the largest assortment of imported delicacies than can be found anywhere in this part of the country.

The following resume depicts many of the interesting and unusual features found in this great food market.

#### The Grocery Department

ON one of the many shelves one finds choice imported liquors of pre-prohibition flavor, yet conforming to the law.

Unusual too, is the character of edibles one finds in this amazing department. There are French peas with ham, canned hearts of Palm from Bordeaux, France (the tender sprouts of newly planted palm trees) an inspiration to a "different" salad.

Red Caviar and Anchovies in almost every color of the rainbow. Sardines with tomatoes . . . fresh caviar, shipped from Russia to England via airplane and rushed to Mollere's Groceteria by ocean greyhound. It sells for \$9.75 for a 14 ounce tin, though epicures recognize this price as an extremely low one, which usually is \$15.00. The serving of this dish is a boast of London's smartest Hotel Savoy. Eels in jelly; watermelon rind; French Marrons (Chesnuts); stuffed oranges; jellied fruits in brandies; and olives of almost every size and description—olives with anchovies—olives stuffed with caviar and truffles. Olives packed in olive oil with a rare flavor all their own.

Should one wish something both delicious and unusual in a condiment, Mollere's Groceteria presents an almost limitless array: Epis de Mais (tiny ears of corn in vinegar) from France; pearl onions—small as tiny pearl beads, from Holland; Brushed Truffles; Pate de foie gras; pickles, and host of other palate tempters are always available in addition to varied sections of the more generally known condiments.

#### The Fish Department

THIS department is one of particular pride to the Mollere's Groceteria, holding, as it does, the reputation of having the freshest fish on the entire Coast. Not a mite of that detectable water-fresh flavor is lost by the Mollere's Groceteria method of display. Here too, one finds the market's choicest smoked herrings, mackerel, cod, salt fish, oysters, shrimp and lobsters.

#### The Mayonnaise Department

ALL well-known nationally-advertised brands, are found on our open shelves. Also French dressings, thousand island dressings, and here, also, are palatable sandwich spreads such as olive butter and date butter.

#### The Delicatessen Department

AN almost endless variety of cold meats, potato salads, chicken salads, veal salads, Sulze, Holland's own Frankfurter sausage; hams in cans. Everything tempting and well displayed in our most modern displays. Here also you will find many varieties of cheese. There is pineapple cheese; English Stilton cheese; Imported Swiss and Limburger, as well as most of the popular domestic brands in molds, cartons, or glass.

#### The Bakery Department

MOLLERE'S Groceteria receives an endless variety of goodies for the table—fresh every day. In addition to the well-known favorites, such as rolls, pies, coffee cakes, buns, etc., one finds here many of the well-known package cakes.

#### The Butter and Egg Department

NO food products could boast of a more careful scrutiny than eggs that pass the Mollere's Groceteria inspections. Ranking equal in supremacy in this department is the famous Waveland Dairy's butter, holding the grading of "93 score," the highest standard any butter can obtain. Many other good butters are handled in this department.

#### The Poultry Department

WHY are Mollere's Groceteria dressed chickens, ducks, turkeys, squabs, and other fowl always so delightfully tender? They're choice milk-fed stock, of course, but mostly because Mollere's well-trained meat cutters remove all those tough sinews—a little thing, perhaps, but what a big difference it makes!

#### The Fresh Meat Department

THE finest in the South, in this department you will find only choice government inspected meats are sold.

#### Fresh Fruit and Vegetables

THERE is practically no "off season" in this department, for all year 'round Mollere's Groceteria presents fresh fruits and vegetables chosen from famous markets the world over. Notice our mechanical sprays which keeps our fruit and vegetables garden fresh.

## JOHN H. WESTON OF HANCOCK COUNTY LAID AWAY SUN. AFTERNOON

Prominent Resident and Leading Business Man Passed  
Away Shortly After Mid-Night Saturday—  
Following Illness.

All that was mortal of John H. Weston, leading Hancock resident and business man, was laid away Sunday afternoon at a late hour in the family burial plot in the hallowed precincts of the village cemetery at Logtown, given to the keeping of the ages and in that vicinity where he had lived and was so fond of. Pastor Ellis of the First Methodist church, officiated. Pall bearers were, Leo W. Seal, Clem W. Weston, Cooney Weston, Coburn Weston and Horatio Weston.

Mr. Weston, who had been ailing for some time took a turn for the worst recently, and ever since has been critically ill, his life despaired of. Every attention possible was given, the best of medical care was provided for but to no avail, the inevitable end coming at 1:30 o'clock Sunday morning, and passing away as peacefully and beautifully a life as he had lived.

He was not only known here but prominent in two States as a leading lumberman of the South. He was president of the H. Weston Lumber Company, succeeding his brother, the lamented H. S. Weston who passed away some two years ago at Jackson where he was stricken while on a business visit.

In addition to his wife, who, before her marriage, was Miss Amelia Baxter, a sister of Mrs. Leo W. Seal and Mrs. Ella Maybin, both of Bay St. Louis, he is survived by two sons, J. Roland Weston, resident of Nicholson avenue, Waveland; and Harold B. Weston, former resident of Bay St. Louis but now of Logtown and one daughter, Mrs. Dorothy Robinson of Birmingham, Ala., who has been at his bedside for the past several weeks.

Two brothers, Dave R. Weston and A. Coburn Weston. Other brothers, deceased, were H. S. Weston, Cooney Weston and Asa Weston, sons of the pioneer lumberman of Hancock county, Henry S. Weston, for whom the H. Weston Lumber Company was named. In addition seven grandchildren survive.

In addition to being president of the H. Weston Lumber Company he was also president of the Riviera Land & Improvement Company, extending its vast land operations over three counties in two States, Hancock Pearl River and St. Tammany. He was also president of the Union British Lumber Company of British Columbia and Oregon, holdings of the latter actively represented by his son, Roland, who resided at Portland, Oregon, until recently. The company had vast holdings in the timber fields of Old Mexico. The holdings in Mexico were extensive in mahogany but the company gradually disposed of considerable of this lot.

Mr. Weston was 63 years of age, born at Logtown February 23, 1870. Following a liberal education in local schools he later took a business course at Soule's College, New Orleans, and before he had reached his majority was actively identified with his father's company, to which he rose to be the executive head. He married at Logtown and spent his years there. He was universally beloved by all who knew him. He was a man of many attributes, kindly and always friendly, and it may well be said to his credit and memory and as heritage to his children, all men were equal. He knew no caste.

# Mississippi's Welfare

## Lies in the Balance

Predominantly agricultural, Mississippi is subected abnormally to economic forces beyond her borders.

Manufactured goods costing millions of dollars must annually be purchased from industries in far away communities.

Agricultural commodities must sent many miles from their origin to find markets, only in many cases to be returned as finished products to be repurchased.

Local markets for farm products of all kinds remain restricted through lack of sufficient diversified industrial payrolls.

Fitted in every respect to command the attention of industrial leadership, new opportunities for Mississippi open with prospects of bettered times.

A sincere spirit of cooperative welcome to industry will help your community and your state achieve new standards of home life for its citizens through more balanced farm and factory activities while assuring a continuation of industrial benefits already being obtained.

Specific and definite developments point toward a renewal of the Southward trend in industry. The efforts of this Company continue directed toward securing for Mississippi a commensurate portion of such investments.

B. E. EATON, President.

## ... NO TIME TO WAIT—

SOMEONE is ill... get the doctor at once—no time to wait... that is when you want a telephone.

You want to talk with a friend across town or in another city—and that is when the telephone serves you well.

After all, life is made up of major and lesser incidents like these—when you need to speak to someone, or they want to call you.

If you try to determine the value of telephone service, a good way it might be measured is by its protection in emergencies when a swift summons must be sent to the doctor, the police, the fire department. Or its value may be summed up in the many little errands it runs for you every day.

But whatever the yardstick, most folks agree the value of telephone service is so great and the cost so reasonable that it really doesn't pay to try to do without it.

### SPECIAL NOTICE TO SWEET POTATO GROWERS OF HANCOCK COUNTY.

The sweet potato as one of Mississippi's potential money crops, the State Plant Board is making every effort to aid in the development and promotion of this crop. To do this certain conditions must be met—strict regulations must be enforced and in the promotion of this program this office is in receipt of a circular reading as follows:

"Public Notice to Sweet Potato Growers"

must apply to State Plant Board for field inspection before July 1st, sending money order for 50 cents with application.

"All Mississippi sweet potato growers who expect to sell, exchange, or give away seed sweet potatoes or potato plants next season must make written application before July 1st to the State Plant Board at State College, Miss., for the necessary inspection, sending a post office money order for 50 cents with the application.

"This rule of the State Plant Board applies to all growers, whether they have been previously certified or not. Remittance by post office money order only must accompany each application and will be used as payment for any number of certificate tags up to fifty. Money orders will be returned to growers whose fields are commended on account of disease, or who do not order tags.

"In asking for the inspection the grower should give his name and address, acreage in sweet potatoes to be inspected, and exact location of his farm and potato fields.

"REMEMBER: Applications for field inspections, with the money order for fifty cents, must be mailed before July 1st to The State Plant Board, State College, Miss."

The sweet potato in addition to its potential value as a money crop and food for the table, is an excellent feed for livestock, and this season with reports reaching this office indicating a short corn crop over the

### LOW PRICE CARS VS. CHEAP CARS

We do not build a low-price car: the cost to us of building our car is pretty high.

But we do sell a high quality car at a low price. Almost every new Ford V-8 car we have built so far this year, has cost more to manufacture than its selling price was. As you buy them at only \$490 to \$610, we have to depend on increasing volume to make up the difference.

The reason for this is simple:—a manufacturer who gives good value must expect to lose money on the first cars he sells because he cannot charge all his costs to the people who are first to buy.

But with the purchaser it is different—he cannot afford to lose anything on a car. It must give him full value from the first, and keep on giving him full value for years.

Two things make possible our combination of low prices and high cost quality:

1. Volume Production
2. Taking only one profit

First, we set our price at what would be fair to the public on the basis of economies we enjoy in volume production. Then, in order to justify and maintain our low price we must get volume sales.

Thus it comes that a car which is really high-cost to make, is also low-cost to buy.

There is a difference between a cheap car and a low-priced high quality car.

Ford prices are always fixed at a point which makes it profitable for a customer to buy.

Good and lasting business must produce profit to the buyer as well as to the seller. And of the two, the buyer's profit must be, comparatively, the larger one.

It pays us to sell the Ford V-8 because it pays you to buy it.

### "GABRIEL OVER THE WHITE HOUSE" MOST THRILLING PICTURE

#### Timely Story of President Who Brings Country Out Chaos Will Touch Hearts Of Millions.

Stirring enacted, brilliantly conceived and directed, and telling a story which will reach the hearts and probe into the minds of millions of Americans, "Gabriel Over the White House," to be at the A. & G. Theater, Thursday and Friday, June 22-23, is the most sensational, vigorous, timely and realistic motion picture produced since the era of the talkies.

Metro-Goldwyn-Mayer is to be congratulated on the handling of the difficult theme of a President of the United States faced with the current problems of unemployment, racketeering, prohibition and world disarmament. Walter Huston, in a performance that will be the talk of the country, enacts the President who comes to the White House as a bluffing, back-slapping, insincere politician and subsequently meets with an accident which changes him almost overnight into a man of integrity, resourcefulness and the iron ability to take control of a baffling series of obstacles involved in the chaos of a nation plunged into economic uncertainty, riddled by gangsters and thwarted in its demand for payment of European debts.

Never before have such thrillingly real episodes been flashed on the screen as the spectacular presidential inauguration, the camp meeting of the unemployed army, the scene in the Senate Chamber in which the

President defies impeachment and demands the power of a dictator, the federal war against racketeers with the gangsters lined up under the shadow of the Statue of Liberty to be shot, the sensational scene on the deck of the presidential yacht in which foreign diplomats are given an opportunity to see what will happen if their representative nations default in their debt payments and the final, touching episode in which the President, having achieved his vision dies in the arms of the secretary who loves him.

"Gabriel Over the White House" will undoubtedly go down in the history of motion pictures as the most sensational piece of film entertainment the world has known. It is one of those rare pictures which strikes home.

### THE DEPRESSION GARDEN.

JIM JOHNSON planted agarden, Taters and onions and corn, Never saw a man work so hard, Not since I was born.

He hoed that corn and taters, He knelt and pulled the weeds, He worked from day-light until night, Planting and sowing seeds.

Then one day, just at day-break, He happened to look out the door, And there in our garden was a bunch of chicks, All of them scrawny and poor.

The garden was all scratched up for sure, And Jim he almost cried, What can I do now, to help the depression, I sure made a garden and tried.

—E. G.

His rich aunt—And what has brought you to town, Reginald? Nephew—Just up to see the sights, Auntie, so I thought I'd call on you first.

## The Printed WORD

The printed word reaches more people sooner than verbal or personal contacts. It has an approach that rivals that of the best salesman; it often gets in where real salesmen fear to tread. If your business seems to be slacking up try treating it the printed word way. You will be rewarded with results.

## Underweight Children

Need More Iron in Their Blood!

Children who are thin and pale and who lack appetite are usually suffering from a deficiency of iron. When the blood lacks iron it becomes thin and poor and fails to nourish. Then a child loses appetite and becomes still thinner and weaker—and easy prey to disease! To build up your child, give him Grove's Tasteless Chill Tonic. It contains iron which makes for rich, red blood. It also contains tasteless quinine which tends to purify the blood. These two effects make it an exceptional medicine for young and old. A few days on Grove's Tasteless Chill Tonic will work wonders in your child. It will sharpen his appetite, improve his color and build up his pep and energy and increase his resistance to disease. Grove's Tasteless Chill Tonic is pleasant to take. Children like it and it is absolutely safe for them. Contains nothing harmful. All stores sell Grove's Tasteless Chill Tonic. Get a bottle today and see how your child will benefit from it.

### DELIGHTFUL GRADUATION PARTY FOR S. J. A. '33

Misses Alma LeJeune and Joyce Wolfe, were joint hostesses to a dance party Saturday evening, following graduation exercises, St. Joseph's Academy, at the beach home of the parents of Miss Wolfe, Mr. and Mrs. J. J. Wolf. The party was for members of Class '33, S. J. A., of which both Miss LeJeune and Miss Wolfe are members.

The beautiful home with its wide galleries admirably suited for entertaining, the spacious rooms opening to the open spaces facing the moon-silvered waters of the bay that night. Large and artistic Japanese lanterns, with "S. J. A." figured in bold letters on the outside gave soft light and radiated color.

An orchestra in attendance discoursed entrancing music and guests, quite a number of the younger set, enjoyed the dance until the midnight hour.

Refreshment were served throughout the evening.

Mr. Wolf designed and made the decorations. An artist, it was evident on all sides that a master touch had been at work.

Mrs. J. J. Wolf and Mrs. M. C. LeJeune assisted the young and attractive joint hostesses in their memorable dance party of the graduation evening in June.

### MRS. W. J. KIDD'S DELIGHTFUL BRIDGE

Mrs. W. J. Kidd, Carroll avenue, was hostess Thursday afternoon to a seven-table bridge, five of auction and two of contract, the occasion to meet her daughter, Mrs. Charles P. Mitchell, of Guatemala, who is visiting here for a month before going to Boston to spend another month with relatives.

The affair was preceded by a luncheon and easily proved one of the charming and most delightful social afternoons of the gay early summer. Cut flowers served to decorate the rooms and spacious living room.

Successful scorers at contract bridge were Mrs. F. Dorman and Mrs. W. F. Ryan, both of New Orleans; at auction, Mrs. Ben Hille, Mrs. J. C. Buckley, Miss V. Gex and the "cut" was captured by Mrs. Robert L. Genin.

Mrs. Mitchell is a popular visitor and the recipient of many social gestures while here.

### MEMBER BAY ST. LOUIS FAMILY WEDS AT N. O.

Miss Ruby Tomasi, youngest daughter of the late Mr. and Mrs. A. C. Tomasi and sister of Mrs. Edmund F. Fahey and Mrs. Edw. Osborn, of this city, was married Monday morning at New Orleans to Mr. Robert Gerard Funk, Jr., only son of Mr. and Mrs. R. G. Funk of New Orleans, and as a double event of happiness the marriage ceremony was celebrated on the date of the groom's parents' wedding anniversary. The ceremony took place at St. John's church, 9 o'clock. Following an informal ceremony the bride couple left by train on a wedding trip to Florida, and on their return will be "at home" at 2121 Josephine street. The affair was a beautiful church wedding, Mr. Edmund F. Fahey, Junior, of Bay St. Louis, one of the ushers, and many friends and acquaintances attended, adding their best wishes for the happiness of the young wedded people. The wedding claimed wide social interest.

### Field Representative American Red Cross Visits Bay City

Mrs. Mollie Hodges Nicholson, Field Representative, American Red Cross for State of Mississippi, paid Friday the Chapter doing a very splendid piece of work, and particularly commended the work of George R. Rea, Chairman, and Miss Mae Edwards, Production Chairman. In looking over Miss Edwards' records, Mrs. Nicholson found that her work showed thought and effort. Her organization plans were excellent. Mrs. Nicholson stated that she felt that the plans that Miss Edwards had made for the fall distribution of cloth were excellent.

Miss Mae Edwards will attend the Red Cross Institute held in Vicksburg, June 20-23, where National Representatives will give instruction. Mrs. Nicholson stated that she thought that Hancock county was very fortunate in having such people as Mr. Rea, Mrs. Carriere and Miss Edwards to be in charge of their work.

### Fanciful Journey Around The World To Sources Of Varied Food Supply

(Continued from page 1)

vegetables and fine fruits and most delectable of their kinds.

Continuing southward, we soon pass over Boston, now America's greatest fish market. From here, Mollere's gets the world's famous lobsters and other seafoods.

Next comes New York, which, in addition to boasting the world's largest city ranks first in Cheddar cheese and across the river, New Jersey, is famous alike for her industries and for her luscious, rose-red tomatoes.

Pennsylvania, where one-third of the country's chocolate is manufactured; Maryland, renowned for its canneries; Georgia, for its peaches; Florida, for its incomparable grapefruit, are quickly skirted as a side trip takes us to Cuba—verdant land of sugar and bananas.

Northward, back to the United States, straight ahead Horn Island, Ship Island, Cat Island, and now Biloxi, Gulfport, Pass Christian, Bay St. Louis and a few more fleeting minutes take us back to our starting point.

But before we finally land at our own starting point, we pass over the beautiful Gulf Coast with its waters from the gulf of emerald hue and changing at times to azure blue, a charm and blend of color hard to describe. Here from the gulf coast land we get the finest strawberries grown, fresh and health-giving vegetables of all kinds and fruit as well, for this is the home of various kinds of berries, etc.

From the gulf fish, shrimp, oysters, crabs and many denizens of the briny deep inhabit these waters and from this supply we get the best, always fresh for your table and at prices that mean more than value received. It is this that gives Mollere's Groceteria and its unexcelled service the name and good will it enjoys over a wide area of coast and county territory. People come from far and near to buy at Mollere's.

While we have traveled far and seen much, we have not topped the surface of that vast granary of the world that must frequently be drawn upon to stock the shelves of the great Mollere's Groceteria and though there be an apparently confusing number of grades and kinds of most everything grown or produced Mollere's Groceteria has reduced their selection to an exact science, being guided always by the requirements of its own slogan—"If it comes from Mollere's Groceteria, it's the best."

urer, Emelda Bourgeois, secretary, Jack Evans.

Mrs. J. Merian and Mrs. A. Marie visited Mrs. D. R. Fayard, Jr.

Mr. and Mrs. Neil Ford, Mr. and Mrs. Joe Campisi, Mr. and Mrs. Rabenak, Mr. and Mrs. John Bacchus visited Mr. and Mrs. E. P. Johnson over the week-end.

Mr. Walter Jacobs was over to visit his home the Golden Creamery Dairy on Old Spanish Trail.

The charming Miss Virginia Carver had as her guest for the day, the delightful Margie Trains. They completed the afternoon by swimming and driving with their boy friends.
